github.com/BrianCode9

Education

West Virginia University

Bachelor of Science in Computer Engineering and Computer Science

Honors Foundation; GPA: 4.0

Expected – May 2028

Morgantown, WV

Experience

Agile5 Technologies, Inc.

Software Development Intern

May 2025 – Present

Fairmont, WV

- Built a fullstack application using **React, TypeScript, Next.js, Tailwind CSS/HTML, Databricks Warehouse**
- Developed an anonymous text-to-speech tip line feature using **Python, Whisper API, Databricks Pipeline**
- Utilized **Databricks SQL Library, NGI, and NCIC databases** to create crime visualization dashboards

Projects

Cloud Infrastructure Control & Automation Tool

October 2025

- Built a web app to assess file risk by analyzing metadata for corruption and anomalies

WIP

2025

- Built a scheduling assistant that uses AI to optimize calendar events based on user preferences and task priorities

WIP

2025

- Built a Pomodoro timer in TypeScript/Next.js that rewards users with random jokes after each 25-minute session

Extracurricular Activities

SoftwareWVU

President & Founder

Feb. 2025 – Present

West Virginia University

- Organized club meetings, and hackathon trips to other universities and wrote grants for meetings and traveling costs.
